PROJECTS

○ **April 2023**
Technophilia solutions ltd.
App Developer

Android Movie App This Android Movie App project allows users to browse and discover popular and top-rated movies. It leverages the TMDb API to fetch movie data and displays it in a user-friendly interface.

○ **JUNE 2023**
Technophilia solutions ltd.
App Developer

My API App This is an Android app that allows the user to search for GitHub repositories using the GitHub API. The app displays the ID, name, and description of the repositories that match the search term. Fetching data from the server and presenting in JSON format using API.
